	Comments:	

Q15	Is it mandatory to record tobacco use in all medical notes?	Yes/No
	Comments:	
Q16	Is it actually done?	Yes/No
	Comments:	

Q17	Are healthcare workers trained to give brief advice, encourage quitting, and refer to specialised cessation support where it exists?
	Yes all
	Some

None / not really	
Comments:	

Q18	Is brief advice integrated into relevant healthcare (and other) systems, including primary care, and those for treating tuberculosis, asthma, HIV/AIDS, etc.?	
Yes all		
Some		
None / not really		
If some, which ones:		
Comments:		

Q19	Do you have any estimates of what proportion of tobacco users are actually receiving brief advice?	
Comments:		

Q20	Are tobacco control and tobacco cessation incorporated into the training curricula of relevant pre and post qualification courses?	
Yes all		
Some		
None / not really		
Which ones (eg. medical students? nursing students? etc):		
Comments:		

Q21	Are there sufficient training resources in your country? If not are there resources outside your country that you can draw on?	
Comments:		

Q22	Does your country have an official national strategy to promote tobacco cessation and provide tobacco dependence treatment?	Yes/No
Q23	Does your country have national treatment guidelines?	Yes/No
Comments:		

Q24	Do you have a national treatment system?	Yes/No
Approximately what proportion of the population has access to it?		
Comments:		

Q25	Do you have a free national telephone quitline covering the whole country?	Yes/No
Q26	If you have a quitline does the number appear on the tobacco packaging?	Yes/No
Comments:		

Q27	Can tobacco users easily get help in the following settings?	
	Yes	No
Primary care		
Pharmacies		
Dentists		
Hospitals		
Any other settings where they can easily get help? Comments?		

Q28	Are the following medications licensed and available in your country?	
	Yes	No
NRT		
Bupropion		
Varenicline		
Cytisine		
Nortriptyline		
Comments:		

Q29	Are the medications easily accessible and affordable to all tobacco users?	
	Yes	No
NRT		
Bupropion		
Varenicline		
Cytisine		
Nortriptyline		
Comments:		

Q30	Are there any other FCTC Parties that have experience and/or resources that could help, or that you are working with on Article 14?	
Comments:
